Experiences

DevOps Engineer
French Med Company
Paris, France

Since October 2020

Led the implementation of cloud infrastructure on AWS and Azure platforms, resulting in a 50% reduction in infrastructure costs. Designed and implemented a highly available Kubernetes cluster for container orchestration, improving application resiliency and reducing downtime. Built a custom CI/CD pipeline using GitLab CI/CD and Jenkins, resulting in faster and more reliable application deployments.

DevOps Engineer
Defi Solutions
Lisbon, Portugal

May 2015 - August 2017

Built and managed cloud infrastructure on AWS and Google Cloud platforms. Implemented Docker containerization and automated deployment using Jenkins. Configured and maintained Ansible playbooks for infrastructure automation and configuration management. Conducted regular security audits and implemented measures to improve security posture.

Software Engineer
BlackBee Inc.
Aveiro, Portugal

April 2015 - January 2015

Work with development teams to design and develop software applications using Java, Spring, and Hibernate. Automate build, test, and deployment processes using tools such as Jenkins, Ansible, and Docker to improve software delivery speed and quality. Design and maintain cloud-based infrastructure using AWS services such as EC2, S3, and RDS.

Projects

CloudFormation Templates
example.com

Developed a set of reusable CloudFormation templates to automate the deployment of cloud infrastructure resources on AWS.
